

Bangladesh Power Development Board

HEALTH AND SAFETY POLICY

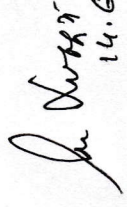

Bangladesh Power Development Board always cares for occupational health and safety of all its employees, suppliers, contractors, visitors, neighbours and other stake-holders.

Our goal is to provide the highest practical standards of health and safety in order to reduce or eliminate any injuries and illness caused by the nature of our activities, products and services, to any or all of them.

We are committed to continually improve our Occupational Health and Safety Performance, by reducing accidents, improving level of compliance to applicable legal and other requirements, and by addressing all incidents with a series of effective corrective and preventive action.

In order to achieve our commitment to Occupational Health and Safety; we will ensure that:

- We will meet applicable safety legislations, regulations and manufacturer's standards, and ensure that OEM Guideline and the prescribed use of equipment and protective device is followed.
- We will provide health and safety training to our employees and actively promote awareness of health and safety issues.
- We will make our contractors aware of our policies and procedures, and where necessary, we will work with our contractors to raise their standards to meet them.
- We will foster a culture where accidents, incidents and near- misses are reported and investigated, and lessons learned are shared throughout the organisation in order to prevent repetition of such incident.
- We will set objectives and targets for improving health and safety performance, identifying hazards regularly, monitoring & assessing them and taking actions to control the risk.
- We will establish a procedure to receive feedback on our performance, conduct regular audits to ensure our controls that are effective and our health and safety aspirations are being achieved.
- We will place a high level of priority on emergency preparedness and contingency planning, and regularly testing them through mock drills, so that any incidents can be responded to in a timely and effective manner.
- We will consult with and respond to the concerns of our stake-holders on our health and safety performance.
